

# About Me

My name is Petrus Chanel Reksy Arfila , I was born in klaten on 28<sup>th</sup> April 1998. I was raised in Jakarta for 8 years and move to klaten on 2006. I always want to be a IT Forensic because my brother was a IT Forensic but the problem is I very weak on math and my principal in elementary school said “You can't reach your dreams because you are stupid”. I often change schools because my grades are always bad . I'm avoiding to go to Senior High School and prefer to go to vocational school because mathematic . after in Vocational High School I learned more about Information technology many things i learned from routing , programming , electricity. In the Vocational High School I learn mathematic to improve my skill. Basic of IT is all about mathematic and I must learn. that's not enough in my opinion and I going to college in jogja to improve my skill about Information technology in Duta Wacana Christian University. In college I was shock because in Information technology many areas of expertise and I focused on the networking.

Now I'm a 3<sup>rd</sup> year student at Duta Wacana Christian University ,this year I following a internship program to build DutaTani app for help new farmer to learn to cultivate gardens and farms. This program started on July 2020 to December 2020. It's first time I do work in outside networking because of demands. Everyday i'm struggling to find the solution and learned a lot from my mistake that i have made. In this program I have a routine meeting on Friday to report task which has been completed. In weekend I always playing games or learn something to solve next task .And in this year I took several class to clear my remaining credit. because pandemic all classes are going online. My hobby is in forensic in IT . I want help people with my skill in forensic to solve all security ini their website or company.

When i graduate from college, i want to become an Devops Engineer and IT Forensic. I would like to applying job on several companies that need Devops Engineer and IT Forensic on their company. After several years working on their company and learn a lot from there, maybe i would make my own company or open a coffee shop and freelancing. And I want to make my parent happy with trip around the world with my familly. i need to find my wife candidate first. I would like to have 2 kids when i'm married. boy and a girl so her brother can protect their little sister. I will do what every parents do to their kids, raising my kids to become

someone and giving what i have to my kids. I want to build a house for my family, as long we can stay together and there is always place to go back. After all that i just want to grow old peacefully with my wife.
